DENIAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby ^{deny}~~grant~~ the same, subject to the following limitations and conditions:

This application is denied on the grounds that an additional permit is not required to reuse waste irrigation water on the irrigator's land with an appurtenant water right. The irrigation of additional land without appurtenant water rights would conflict with existing rights and threaten to prove detrimental to the public interest.
